Recall #: R0153 | Product Improvement Campaign - KSDS Update Recall Date: 2018 Sep 01

Recall Description

Issue: Hyundai Auto Canada is conducting a Product Improvement Campaign that provides an update to the engine control module to detect potential problems before an engine fails. An engine failure would cause a sudden loss of power with an inability to restart. Safety Risk: A sudden loss of engine power could increase the risk of an accident. Corrective Actions: The company will notify owners by mail. Owners will be instructed to take their vehicle to a dealer to update the software for the engine control module. Note: The Transport Canada Campaign number was changed to 2019-640. Vehicles previously repaired under Transport Canada Campaign number 2019-130 do not require this software update. Recall #: C0367 | Auxiliary Carbon Canister Install Recall Date: 2019 Nov 18

Recall Description

Issue: On certain vehicles, the evaporative canister may have a defective sponge that is too short in length causing charcoal dislodging to occur. This may reduce the effectiveness of the canister and result in emissions exceeding the prescribed standards. Corrective measures: Dealers will install an auxiliary canister on all affected vehicles.

Corrective Actions: Hyundai will notify owners by mail and instruct you to take your vehicle to a dealer to inspect the ABS module and replace it, if necessary. The dealer will also replace the ABS multi-fuse. Hyundai advises that you may continue to drive your vehicle, however recommends that you should park it outdoors and away from other vehicles or structures until the recall repairs have been completed.

leak. A brake fluid leak can result in reduced braking. Safety Risk: Reduced braking can cause an extended stopping distance and increase the risk of a crash. Corrective Actions: Hyundai will notify owners by mail and advise you to take your vehicle to a dealership to inspect the underbody, including the brake lines. The dealer will apply an anti-corrosion treatment to certain parts, and replace the brake lines if necessary.

ICBC Disclaimer

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

Consumers are encouraged to read ICBC's full statement of limitations at <http://apps.icbc.com/registration/vchr/Limitation.html>.

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.
